Smarter

Smarter CAD, Smarter Design

- Smart Match & Similar Search - standardize drawings in seconds

- ZWCAD Toolbox - streamline repetitive drafting tasks

- ZWVectorization - turn scanned images into precise DWGs instantly

- Area Table – calculate and update room areas with one click

Easier

Practical Solutions Solves Your CAD Frustrations

- Runs smoothly on most Windows systems (even older PCs) with lightweight installation

- Flexible network licensing with Network License Analysis Tool for maximum efficiency

- Built-in 2D/3D drafting, Point Cloud, GeoService, IFC, PDF import/export, and Express Tools
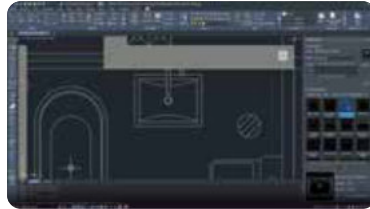

Switch to ZWCAD today

ZWCAD is a professional and cost-effective 2D CAD solution. It provides architects, designers, planners, and engineers with top-tier DWG and DXF compatibility, ensuring seamless collaboration with other CAD tools. Thanks to its intuitive user interface and innovative tools, ZWCAD has everything you need to turn your ideas into reality.

Parametric Design

Add geometric and dimension constraints to entities for quick size and shape adjustments, making design changes and drawing reuse easier.
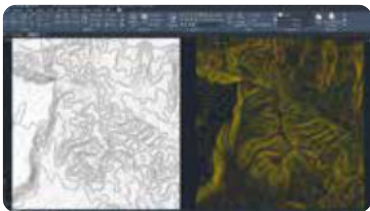

Similar Search

Search for similar blocks in local files based on a specified graphic, simplifying the reuse of historical block data and saving time.
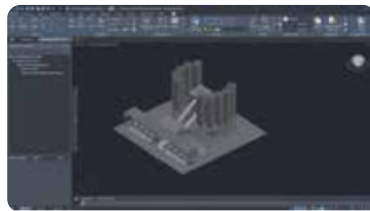

Smart Match

Automatically identify identical shapes and support batch editing to improve drawing editing efficiency, reducing manual effort significantly.
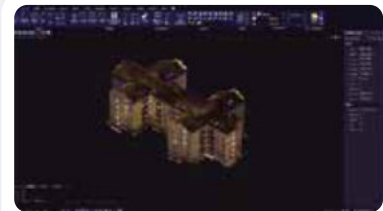

Vectorization

ZWCAD offers the ability to convert scans of old plans and raster graphics into editable vector graphics.

IFC Import, Edit, Export

Enhanced IFC format support enables component filtering for import and custom attribute export, combined with structure tree intelligent retrieval and reference attachment.

Point-Cloud

Thanks to efficient hardware utilization, ZWCAD can import and edit large Point Cloud models. Editing tools allow to automatically create drawings, edit visual styles and change the LoD.
