What the upgrade unlocks

Route	Main workflow gain	Simple sales angle
Go to Pro	Desktop SketchUp, LayOut, Extension Warehouse, professional import/export and proper production documentation.	This is the jump from quick concept work to a serious professional SketchUp workflow.
Go to Studio	Everything in Pro, plus V-Ray, Scan Essentials and Revit Importer for advanced visualisation, point clouds and BIM context.	This is the strongest move when a customer wants to stop buying separate tools and build one connected workflow.
Pro to Studio	Adds V-Ray, Scan Essentials and Revit Importer to an existing Pro workflow.	Best for Pro users who are now being asked for better visuals, survey accuracy or Revit/BIM collaboration.
