Trimble SketchUp

PRO CIVIL CONTRACTOR SUBSCRIPTION

Unlock a 3D-to-field workflow

Combines precise earthwork modeling in an intuitive, professional 3D environment, with accurate, reliable data for layout and earth-moving workflows.

✓ Trusted by

MOSER ASSOCIATES · McCARTHY · DESIGN DEVELOP · Barton Malow · ARCADIS · VELUX · HKS · HGA · WILLMOTT DIXON

Connect model data to job sites within the Trimble ecosystem with Pro Civil Contractor

Connect data across survey tools, machine operations and models to minimize rework and improve margins

Top Use Cases

Topography Modeling

Easily generate accurate 3D terrain for earth movement modeling, site logistics and volume calculations.

Stakeout Points

Upload the 3D design into Siteworks to guide the stakeout of control points and the excavation layout.

Machine Control Prep

Convert SketchUp surfaces into high-fidelity designs for Trimble Earthworks systems on excavators.

SEEIT 3D | SketchUp Authorized Reseller

"The SketchUp and Siteworks integrated workflow saved us $25k–$30k by eliminating time-consuming manual measuring and costly rework. It allowed us to quickly verify footing and pad locations, catching physical measurement errors before they turned into misplaced structural elements."

Eric Rudd, Partner at Rudd Companies

What's included in Pro Civil Contractor

SketchUp for Desktop
Powerful desktop modeler

Full-featured and extensible desktop modeler.

SketchUp for iPad
Accessible modeling engine

Sketch, markup, and collaborate in 3D from your iPad.

SketchUp for Web
Browser-based 3D workspace

Create, edit, and share 3D models directly from any web browser.

Site Contractor
Connect 3D to field workflows

Transfer your 3D designs directly into Siteworks for layout or shared into Earthworks machine control.

Extension Warehouse
Third-party plugin library

Customize capabilities to suit your workflow with hundreds of third-party plug-ins.

Trimble Connect
Cloud collaboration

Store, manage, and share project files in 2D and 3D for effective cross-team collaboration.

LayOut
Professional documentation

Create 2D design documentation and compelling presentations.

3D Warehouse
Library of models

Download pre-built models from the world's largest free 3D library.

Field Points
Import known coordinates

Map geolocated points via CSV imports to leverage site data as precise references.

Key Benefits

- **Phone and email support**
- **Centralized billing**
- **Predictable renewals**
- **Software auto updates**
- **User management and visibility**
